

TECHNOLOGY & DEVELOPER LEARNING PORTAL UPSKILL YOUR TEAMS TO EMERGING TECHNOLOGIES

LIVE MENTORING

Free online office hours with certified IT experts gives learners an opportunity for you to ask a seasoned professional any questions you may have about your upcoming certification test.

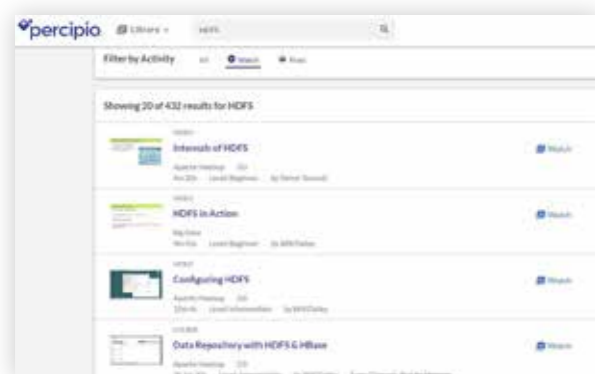

SKILLSOFT CODEX

Our virtual practice lab solution delivers coding exercises with embedded instructional video content that challenges software developers to learn, practice and perfect their coding skills hands-on in an integrated development environment (IDE) with immediate feedback and code validation. By using live machines and fully functioning IDEs, learners can use the sandboxes for other practice and validation needs. Practice labs are available in CISSP, CompTIA, IC3 – Global Standard 5, Oracle, Microsoft administration & certification, Wireshark, VMware, Python, Software Development Fundamentals, and more.

SKILLSOFT BOOTCAMP

Our dynamic virtual classroom experience, where learners access invaluable instruction and real-world insights from leading experts. Learners collaborate in scheduled virtual classroom sessions and have on demand access to replays of prior sessions to refresh and validate knowledge. Skillsoft Bootcamp includes curated resources, all while building confidence and accelerate knowledge retention. Topics include CompTIA, Project Management and MCSE DevOps.

Skillsoft delivers training to more technology professionals than any other corporate learning company. Every year, we deliver 26 million hours of technology and development learning content to more than 5 million learners worldwide. Continual learning is an organization's most important tool in adapting to this unprecedented technology transformation where new roles are rapidly evolving, new skillsets are required and business and technology sides of the business are increasingly converging.

To ensure they can retain talent, organizations need to provide technology professionals with access to an abundance of multi-

modal resources to prepare for certification exams, trouble-shoot on demand, or acquire new technical skills. Finally, an area often overlooked for technology professionals is soft skills – these are crucial for developing effective leaders and communicators.

Skillsoft offers an unparalleled solution, developed in conjunction with our industry-leading experts who carefully curate multi-modal resources into hundreds of learning channels. These channels incorporate several learning modalities including video learning, hands-on practice labs, virtual mentoring and access to the largest library of leading certification prep books and audiobooks.

65%

OF CIOs STATE THAT SKILLS
ARE HOLDING THEM BACK

ISACA, Frost & Sullivan, ESG, ISSA, Forrester Research's 2017 Global Business Technographics Priorities and Journey Survey as quoted in the Forrester Blog: The Battle for Talent.

“The demand for easy-to-use, digital learning programs is one of the biggest issues on the minds of employees and employers today. Platforms that create a TV-like interface to content, enable reading/watching/listening together, and deliver industry

leading skills are in high demand around the world.”

Josh Bersin, Principal and Founder, Bersin by Deloitte, Deloitte Consulting LLP

We believe that true learning is achieved through an experience that supports people in the flow of work – Watch. Read. Listen. Practice.

Our award winning Technology and Developer content is delivered through our intelligent and immersive learning experience platform called Percipio.

WATCH

- Expert-driven, video courses
- Hands-on insights from real-world technologists
- Micro-learning for agile delivery
- Assessment and exam prep

READ

- Thousands of books from the industry's leading technology publishers
- Access to code examples and other support resources
- Certification prep

LISTEN

- Industry's largest collection of audiobooks
- Coverage for DevOps, Agile and other technical topics
- Relevant strategy and leadership titles

PRACTICE

- Hands-on practice labs for both coding and infrastructure scenarios
- Live, virtual bootcamps
- Integrated mentoring and support

Features of Skillsoft Technology & Developer Solution

Instructional Design - Our courses are instructionally sound because they're developed by industry experts and reviewed by in-house eLearning professionals to ensure quality. We also invest heavily to ensure that our library is refreshed on a three-year cycle.

Expert Access - We invest in expert instructors that are responsible for the development of our instructionally sound content assets. Leading experts and mentors that provide an affordable fast track to IT certification and offer test preparation to improve pass rates.

Channels - Experience over 500 pre-curated channels mapped to the competencies that matter most to leading global companies and assign learning paths to specific audiences.

Talent Development - Curated playlists and curriculum maps guide learners through the stages of their career, consistently building on existing knowledge.

Inclusive Learning - Users can access a wide range of learning modalities, including videos, digital books, audiobooks, practice labs and live learning to learn in the way that works best for them. These options make our training accessible to people with different learning styles and abilities.

Certification - Support for more than 100 professional IT certification exams from leading software, hardware, cloud and professional organizations, with a tracked pass rate of over 90%.

Beginner to Expert levels - We curate content in terms of beginning/ intermediate/ advance/ expert according to the standards and pre-requisite knowledge set by the certification providers and vendors. When we define our levels, we look to industry standards such as SFIA and NICE, as they are developed by industry standards bodies.

Percipio ELSA - The Percipio Embedded Learning Synchronized Assistant (ELSA) provides access to the award winning intelligent learning platform via a browser plug-in, so that the experience is available for all users throughout their workday, directly in their natural workflow.

VIDEOS

Our comprehensive content offering is in a micro-learning format that can be delivered on desktop or mobile applications. We have partnered with content providers like ITPro. TV and LooneyCorn to provide ultra-contemporary technical video courses.

BOOKS

With the widest selection of books on the market today, our library includes publications on developer resources, emerging technologies, certification prep and real time reference troubleshooting. Skillsoft partners with the leading publishers of IT, tech and business skills content in the world including APress, McGraw Hill, IT Revolution, Bleeding Edge Press and Rocky Nook Publishers.

ASSESSMENTS

6,000 assessments mapped to Technology & Developer course library with integrated Percipio reporting and learner feedback on pass vs. fail.

TEST PREP

Our certification tests are designed to allow the learner to practice while preparing for an exam. Tests can be taken as many times as needed so the learner can build confidence in their ability. They can also take the test as a "timed" test simulating the pressure a learner would feel when taking the actual exam. Our surveys show 91% first pass rate for people who use our certification prep content.
